Jakarta, Indonesia

Cyber Security Analyst with 2+ years of experience in SOC operations, security monitoring, alert triage, incident escalation, and client-facing security support. Experienced in analyzing and correlating alerts across SIEM, EDR/XDR, NDR, IDS/IPS, NGFW, endpoint protection, email security, and vulnerability management platforms. Skilled in log analysis, incident investigation, severity assessment, security reporting, CVE advisory preparation, and cross-team coordination. Interested in advancing into a SOC L2 role with stronger focus on in-depth investigation, escalation validation, threat detection, and incident response support.

Professional Experience

Defenxor (PT. Defender Nusa Semesta) - Jakarta Selatan, Jakarta Raya, Indonesia

May 2024 - Present

Security Analyst

- Monitored, analyzed, and triaged security alerts from Defenxor SIEM and multiple integrated security platforms to support timely threat identification, investigation, and response.
- Correlated SIEM alerts with logs and events from EDR/XDR, NDR, IDS/IPS, NGFW, endpoint security, email security, vulnerability management, NAC, and network monitoring platforms to validate suspicious activities and reduce false positives.
- Supported incident handling and escalation by documenting findings, creating tickets, and coordinating with engineers, system administrators, security device management, and relevant technical teams for further investigation and remediation.
- Communicated with more than 30 clients regarding potential threats, alert findings, incident updates, and specific security requirements to ensure clear and timely response coordination.
- Prepared daily and monthly security reports containing alert summaries, threat trends, CVE advisories, mitigation recommendations, and actionable insights to improve clients' security posture.
- Assigned as dedicated off-site SOC L1 Analyst and Backup L2 support for an oil and gas sector client, handling client-specific monitoring, alert analysis, reporting, and operational security coordination.
- Built hands-on operational experience in SOC monitoring, alert triage, incident escalation, log analysis, threat detection, client communication, and security reporting across enterprise environments.

Security Laboratory (SECULAB) - Bandung, Jawa Barat, Indonesia

Jun 2023 - Jun 2024

Head of Laboratory Assistant

- Led and coordinated laboratory assistants at the Security Laboratory (SECULAB), Faculty of Electrical Engineering, Telkom University.
- Supported the delivery of Computer System Security practical sessions with an emphasis on hands-on learning and applied security concepts.
- Coordinated laboratory tasks, assistant responsibilities, and practical teaching activities to ensure smooth lab operations.
- Supervised study group activities and research discussions to encourage collaborative learning and productive knowledge sharing.
- Maintained learning quality by supporting structured lab activities, practical demonstrations, and effective student engagement.

Digital Talent Scholarship - Jakarta Pusat, DKI Jakarta

Feb 2024 - Mar 2024

Security Operations Analyst

- Completed Security Operations Analyst training through the Digital Talent Scholarship program.
- Built practical knowledge in identity management, Azure Active Directory authentication, access governance, and identity protection.
- Gained hands-on experience with Azure security capabilities, including threat detection, security management, and compliance workflows.
- Worked with Microsoft security solutions, including Microsoft 365 Defender, Defender for Endpoint, Defender for Cloud, and Microsoft Purview.
- Practiced securing Microsoft ecosystems through theoretical learning, hands-on labs, and cybersecurity simulations.

Infinite Learning Indonesia - Batam, Riau, Indonesia

Aug 2023 - Dec 2023

IBM Academy Student for Hybrid Cloud & AI

- Completed a Red Hat Certified System Administrator Bootcamp conducted by Infinite Learning Indonesia at Universitas Pendidikan Indonesia.
- Gained practical experience in Linux system administration, including managing, operating, and configuring Red Hat Enterprise Linux servers.
- Earned the Red Hat Certified System Administrator certification after completing hands-on technical training and practical exercises.
- Developed a capstone project using IBM Security Verify, focusing on the Device Flow approach for secure website authentication.
- Strengthened knowledge in hybrid cloud, cybersecurity fundamentals, Red Hat Linux administration, and authentication system implementation.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka - Bandung, Jawa Barat, Indonesia <i>Student of Cloud Computing Learning Path</i> - Completed the Cloud Computing Learning Path at Bangkit Academy, a career readiness program led by Google, GoTo, and Traveloka. - Developed and deployed a REST API endpoint for the RelaVerse Capstone Project, integrating backend services with the mobile development team. - Deployed backend services on Google Cloud Platform to support scalable and reliable application performance. - Monitored API activity to help maintain service availability and support optimal application performance. - Strengthened practical knowledge in cloud computing, backend deployment, API integration, and professional career readiness.	Feb 2023 - Jul 2023
---	---------------------

Cisco Networking Academy - Depok, Jawa Barat, Indonesia <i>Student of Kredensial Mikro Mahasiswa Indonesia 2021 - Universitas Indonesia</i> - Completed a 144-hour Network Security Penetration Testing course at Universitas Indonesia in collaboration with Cisco Networking Academy. - Gained practical exposure to vulnerability assessment, penetration testing, and network security implementation. - Completed university-level learning equivalent to Computer Network Security and Laboratory Practices, carrying 3 academic credits (SKS). - Participated in the KMMI program under the Merdeka Belajar- Kampus Merdeka (MBKM) initiative to strengthen industry-relevant cybersecurity skills.	Aug 2021 - Oct 2021
--	---------------------

Education

Telkom University - Bandung, Jawa Barat, Indonesia <i>Bachelor of Computer Engineering, 3.77/4.00</i> • Cum Laude	Sep 2020 - Jul 2024
--	---------------------

Organisational Experience

Majelis Perwakilan Mahasiswa - Bandung, Jawa Barat, Indonesia <i>Member of Supervisory and Assessment Board</i>	Jun 2022 - Jun 2023
---	---------------------

Technical Skills, Certifications & Training

- **SOC Operations:** Security Monitoring, Alert Triage, Incident Escalation, Incident Documentation, Security Reporting, Client Communication
- **Security Technologies:** SIEM, EDR/XDR, NDR, IDS/IPS, NGFW, Email Security, Vulnerability Management, Endpoint Protection, NAC, Network Monitoring
- **Security Tools:** Wazuh, Fortigate, CrowdStrike, Suricata, Kaspersky Security Center, SOCRadar, Palo Alto NGFW, SentinelOne, Proofpoint, Rapid7, Check Point, Trend Micro, Darktrace, Tenable, Cisco Firepower
- **Certifications** 🏆 (2026): C)IHE: Certified Incident Handling Engineer
- **Certifications** 🏆 (2026): Junior Penetration Tester (eJPT)
- **Certifications** 🏆 (2025): Certified Web Security Expert (CWSE)
- **Certifications** 🏆 (2025): Certified Associate Penetration Tester (CAPT)
- **Certifications** 🏆 (2025): Certified Red Team Analyst (CRTA)
- **Certifications** 🏆 (2025): Multi-Cloud Blue Team Analyst (MCBTA)
- **Certifications** 🏆 (2023): Red Hat Certified System Administrator (RHCSA)
- **Certifications** 🏆 (2021): Network Security Penetration Testing
